2018 CP of NYS Annual Conference

## **RECOGNIZING OPPORTUNITIES: A PATH TO SUCCESS**

**Devin Hamilton**, *President, RapAdapt*

**11:15 to 12:30, Tuesday, October 16**

Everyone travels a different path to success but the fundamental building blocks are almost always the same, even for those with disabilities. These building blocks include creativity, dedication, determination, and appropriate perspective. Building blocks such as these, coupled with the ability to recognize opportunities and take full advantage of them, create a perfect formula for success. This presentation will provide anecdotes of some personal successes, struggles, and failures as well as give suggestions on how you can create your own formula for success or help someone else succeed.
