### **Direct Support Professionals Recognition Week**

Annamarie Clarke, from the Bronx, NY, has worked for Cerebral Palsy of Westchester for the past four years and is one of our 2017 Employees of the Year. She chose this career for the benefit of helping others, and finds the most rewarding part of her job is keeping a smile on the individuals' faces. Annmarie's daily routine as a Day Habilitation Assistant is to ensure that the individuals are safe and properly taken care of. She is also the transportation liaison, ensuring safe arrival and departure for all our adults in the Day Habilitation and Day Treatment programs at CPW. Annmarie is CPR certified as part of the required staff trainings and is also van certified. Cerebral Palsy of Westchester greatly appreciates Annmarie's dedicated hard work and her willingness to go above and beyond for our agency and the individuals we provide services for.
