

Justice Center Will Conduct Regional Conferences in May

The Justice Center will be hosting a series of regional conferences throughout the state starting in May. The conferences are for provider agencies as well as individuals receiving services, families, peer advocates and other interested stakeholders under Justice Center jurisdiction. Each of the five events will be an opportunity for stakeholders to learn more about the agency as well as get questions answered. The first two hours of the conference will be agency updates including new data trends, agency initiatives, changes in business practices, and information on resources available to providers. The second two hours will be an in-depth session of the participant's choice from a group of selected topics.

There will be one conference per Justice Center region. The agency's regional map can be found on the Justice Center website. Dates, location, and registration information can be found at the link below.
